CHURCH'S WORK IS CO-ORDINATED BY NEW COUNCIL

Five Great Departments
Brought Under Control of
Executive Council of Which
Bishop Gallor Is Head.

The reorganization of the government of the Episcopal church in America as planned by the recent general convention at Detroit, will be completed at a meeting of the executive council which will be held in New York Thursday.

Bishop Gallor, of Tennessee, is president of the council, which has 26 members, including bishops, clergymen and laymen. The executive council has complete jurisdiction over all the activities of the church, which has been divided into five great departments. These are the department of missions and church extension; the department of religious education; the department of Christian social service; the department of finance; and the department of publicity. Each of these departments has the right to add 12 members to assist in the work, but for the present members of the executive council have been named as members of subcommittees in charge of the work. Each department is, of course, already organized with its boards and subcommittees, which will hereafter function in co-operation with the executive council. The department of publicity is a newly created organization, which will work with similar departments to be created in each diocese.

By-laws will be adopted at the coming meeting in New York, which city will be the headquarters of the executive council. It is probable that frequent meetings of the executive council will be held and that Bishop Gallor, as the head of the church's activities will be compelled to spend much time in New York, although after the several departments are thoroughly reorganized, the work will be carried on through subcommittees and the executive secretaries of each department.

It has been feared that the duties of Bishop Gallor might compel his continued residence in New York, but when the bishop left Memphis last Sunday night he had not changed the plans he made when he was elected to his new office, which were to retain his residence in Memphis and his summer home in Seawater, although necessarily he will be absent from his own diocese much of the time, particularly during the first few months of the new year while the work of the executive council is being organized. The headquarters of the council are established for the present in the Church Mission house on Fourth avenue, New York.

Bishop Gallor is to be paid a salary as executive head of the church in keeping with the dignity of that high office.

RAT POISON MILD TO HEALTHY NEGRO

When Henry Anderson, negro, 152 Keel avenue, took rat poison Tuesday afternoon, it might have had the same effect that it usually does on a rodent, but for the timely interference of Dr. Cecil E. Ward. But after a few minutes' treatment, the doctor telephoned to police that Henry was "doing nicely."

An Envidable Reputation Already Won

Hundreds of dealers who drove new Cleveland Sixes from the factory in Cleveland to their home cities have written the factory expressing their admiration and confidence in the car. What they all say is summed up in this sentence from one of them, "I can look any man in the face now and tell him the Cleveland is a regular automobile."

And that's what the Cleveland Six is—a regular automobile, an unusual automobile.

Hundreds of Cleveland Sixes, within the past four months, have undergone long, grueling, cross country drives, with honor. They have passed over great hill drives and long mountain climbs, plowed through mud and wash-

outs and desert sands where other cars stall and stop. Its power and endurance have already won the Cleveland an enviable reputation.

This is not surprising for skill and sincerity are built into this car by men who have contributed their genius to the building up of one of America's finest quality cars.

Indoor Heat Wrinkles the Skin—the Remedy

As the skin tends to expand in a warm atmosphere, cracks and creases form and wrinkles to form. A good skin lotion should be used by the woman who keeps her face in this daily-particularly before receiving guests, or before going out for theater, dance or other social affair. The lotion, which of course is perfectly harmless, gives almost immediate results, erasing wrinkles and smoothing out the flabby skin most remarkably. The face is wonderfully refreshed and rejuvenated in appearance. Be sure to ask the druggist for the powdered saxeite.
